INSTALLATION OPTIONS

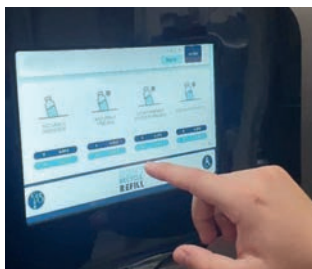

Floor-standing Unit

The Niagara range encompasses our largest capacity water bottling systems. Designed for office use, the Niagara Evo Smart offers maximum hygiene for incoming and outgoing water, thanks to the UVC-LED system and the internal microfiltration. This model is ideal for large uses, allowing instant delivery of large quantities of ambient, chilled or sparkling water. The Smart model comes with an NFC scanner and camera to read QR codes, for touchless operation via its App.

DIMENSIONS

Height:	1551mm
Width:	485mm
Depth:	558mm
Dispense height:	320mm

The Niagara Evo Smart is an all-encompassing product, instantly dispensing large amounts of still and sparkling, chilled and ambient water.

The touch-screen interface makes authentication and beverage selection easy for the user. Four different portion sizes can be pre-set for easy selection.

Touchless operation

Simply select your drink via the App, then show the QR code to the machine using the camera, and enjoy your drink, without having touched the machine.

TYPICAL SPECIFICATION

The Niagara's internal taps can dispense water continuously or intermittently as desired.

The "ice bank" with double coil improves the efficiency of simultaneous chilled and sparkling water dispensing. This high performance cooling technology cools considerable quantities of water and enables the dispensing temperature to be kept constant even when continuously dispensing many litres.

SAFE AND EXTREMELY HYGIENIC

- Water inlet safety - 12 W UV lamp in input
- Safety at the point of dispense - UVC-LED at each output point
- Monitored safety - the app allows for remote management control

**60 bottles
£10.95 each**

**120 bottles
£8.95 each**

FULL WRAP PRINT AREA

Branded Glass Water Bottles

Add your own company logo to our 750ml glass bottle.

Through our bespoke printing service you can brand as little as 60 bottles with your own company design and logo.

Simply supply us with your vector artwork. Set-up, delivery and full colour printing is included. All prices exclude VAT.

- Cut single-use, plastic bottled water
- Reduce the environmental impact of transportation and packaging waste
- Gain fridge and storeroom space
