Premium Water Filtration Guide

Your guide to choosing the most suitable water filter for your environment.

Reduction of CTO

Effective for the removal of CTO (Chlorine, Taste, and Odour) ensuring that your water has a more appealing taste and reduced odour.

Most suitable for

Drinking water supply to improve taste, colour and general water quality.

Reduction of Cysts

Effective for the removal of microscopic cysts, parasites and bacteria in water, which can cause gastrointestinal illness when ingested.

Most suitable for

Private water supply or water that is untreated with chlorine and water is being consumed.

Reduction of Lead

Effective for the removal of lead (a toxic metal) in water.

Most suitable for

Workplaces and home environments, where properties were built before 1970.
