

puraUV ultra water steriliser

Eliminates 99.99% of all waterborne microorganisms, including mould, bacteria and viruses
For use with mains fed water coolers, taps, coffee machines and refrigerators.

puraUV

- ✓ Eliminates 99.99% of bacteria and virus in water
- ✓ Long service life
- ✓ Easy change fittings
- ✓ Ideal for use in the home and office, with mains fed water coolers, taps, coffee machines and refrigeration
- ✓ Low mercury content
- ✓ Energy saving - turns on only when the water passes through
- ✓ Precise UVC radiation control

The **puraUV** ultra water steriliser utilises the most advanced UV technology, eliminating bacteria and virus (such as E.coli, Cryptosporidium, Giardia and Legionella) before it reaches your glass. This is the industry's most compact, energy efficient and intelligent UV water steriliser, that can be easily installed to upgrade your water dispensing or filtration system. Applications include POU water coolers and fountains, water taps, espresso machines in catering establishments and refrigeration.

SPECIFICATION

Height:	86mm
Width:	230mm
Depth:	40mm
Flow rate in clear water:	4.5 lpm
Flow rate in distilled or RO, UF water:	5.7 lpm
Dosage:	30,000 μ W.sec/cm ²
Maximum operating pressure:	6.9 bar
Minimum pressure required to start up:	0.01 bar*
UV lamp service life hrs:	6000 working hrs
Inlet / outlet size:	1/4 inch push fit connectors
Electricity:	100V-240V, 50/60HZ - 12 VDC
Power consumption:	9.5W

* based on 200 ml/min flow rate
