KEY FEATURES

- Chilled water
- Sports bottle filler and drinking fountain combination
- Electronic - touch-free bottle filler activation, and manual drinking fountain
- 30 second shut-off timer
- Enhanced alcove to fit large sports bottles
- Surface wall-mounted model
- Highly efficient cooling tank
- Cooled temperature 10°C
- Designed to eliminate splashing and standing water - the water-saving bubbler reduces waste water by 50%
- Built-in drainage - no drip tray to empty
- With **pura** filtration

The VersaFiller hydration station is a combined chilled drinking water fountain and water bottle filler with electronic, touch-free activation (infrared sensor). The drinking water fountain is activated via one of four push-pads.

The bottle filler has a shut-off timer, and an integrated bottle counter that tracks and displays the number of refills.

This model is suitable for busy venues including public buildings, gyms and sports complexes, hospitals, schools, and offices.

DIMENSIONS

Height:	960mm
Width:	413mm
