Elkay-Hub

hydrateconsciously!
We're committed to reducing plastic waste

Mains fed, surface-mounted, bottle filler

KEY FEATURES

- Electronic sensor activated bottle filler
- Mounted to wall or floor for indoor use
- Optional remote chiller for refrigeration
- Laminar flow provides minimal splash
- Silver Ion Antimicrobial protection on key plastic components to inhibit the growth of mould and mildew
- Full filter change and servicing package included
- Built-in drainage eliminates standing water
- Optional branded vinyl wrap
- With Elkay filtration

The Elkay-Refill Hub Wood Cabinet Bottle Filling Station is a high-performance, wheelchair accessible water dispenser, providing advanced Elkay filtration.

This ambient water dispenser requires no refrigeration for outstanding energy efficiency. Delivering an unlimited supply of filtered water, this bottle filler would make the perfect addition to any eco-conscious business, school, transport hub, shopping centre or factory.

The external cabinet takes up minimal floor space and can be secured to either the wall or floor using pre-drilled location holes. Designed for durability, with rust-proof, vandal-proof and incredibly strong properties, a wipe-clean exterior means that everyday maintenance is kept to a minimum.

The integrated Green Ticker informs users just how many 20oz plastic water bottles have been saved from waste through the use of the refill station.

From train stations to shopping centres, health facilities and schools, you have the ability to create an impact and add your own message to the external cabinet.
