INSTALLATION OPTIONS

Floor Standing Unit

The RiverUp Fountain is connected to the water mains, ensuring constant quality, and the guarantee of a reliable system for drinking water in public areas.

The range of taps makes it possible to drink directly from the jet and/or using a cup. The sink also features a drainage system.

DIMENSIONS

Height:	960mm
Width:	340mm
Depth:	325mm

FULL SPECIFICATION Floor-standing RiverFS Fountain

Rated input	180W
Throughput litres per hour	30L/h or 55 lt/h
Dimensions	340mm (W) x 325mm (D) x 960mm (H)
	Dispense height: approximately 200mm

INSTALLATION REQUIREMENTS

The RiverFS Fountain requires adequate floor space for installation. Please ensure that the following is available where the system is to be installed:

- ✓ **A potable mains water supply within 5 metres of unit installation location.**
- ✓ **A 240-volt electric socket within 1 metre of unit location.**
- ✓ **A suitable waste pipe for the removal of excess water**

All of the above can be confirmed in your site survey.
