Bi-Level Outdoor Pedestal

Mains fed, floor mounted, outdoor bottle filler
LK4420BF1UDBEVG

KEY FEATURES

- High volume water bottle filler
- Evergreen colour as standard
- Suitable for outdoor public environments
- Heavy duty vandal-resistant
- One gallon per minute output of ambient water
- Non-filtered, non-refrigerated model
- Laminar flow provides minimal splash
- Simple push-button activation
- Pet station features slow drainage for easy drinking

The Elkay-Bi-Level Outdoor Pedestal Floor Standing Manual Bottle Filling Station and Pet Bowl is ideal for outdoor installation, with a strong 316 marine-grade stainless steel frame and a simple push-button activation unit to prevent damage from vandals. A water flow rate of one gallon per minute means that it'll fill your standard 500ml drinks bottle in an impressive seven seconds. 100% ADA-accessible.

Equipped with a large, easily accessible bottle filler on the upper level and a recessed pet fountain on the lower level, this two-tier unit conveniently waters people and their pets.

This bottle filler has been built with heavy duty vandal-resistant and corrosion-resistant features. The access panel is cast from heavy duty steel, with anti-vandal screws. This provides easy access should you need to alter or replace any plumbing connections, yet impossible access for troublemakers.

DIMENSIONS

Height:	1626mm
Width:	660mm
Depth:	787mm

MOUNTING INSTRUCTIONS and PLUMBING CONNECTIONS

Provide solid, well-drained surface to mount pedestal fountain (concrete pad recommended). Mount on a smooth, flat, finished surface with adequate support (300 lb. load minimum). Secure unit with (8) 3/8" minimum fasteners (not included). Refer to rough-in. Should be attached firmly to mounting surface in order to secure unit.

Modified low stream height bubbler for pet fountain.

Locate and install plumbing through ground as required.

NOTE: Unit is not furnished with service valve.

Position pedestal over plumbing and secure base to fasteners. Remove access panels and connect supply and water lines. Turn on water supply and check for leaks. Reassemble access panels to pedestal.

Trap and service stop not included.

OPERATING PRESSURES:
Supply water 20 – 105 psi maximum

A = 3/8" O.D. Unplated copper tube connect. Shut off valve by others.

B = Access panel(8" x 10").

C = Removable bottom cover.

Note : New Installations Must Use Ground Fault Circuit Interrupter (GFCI).

Dimensions	660mm (W) x 787mm (D) x 1626mm (H)	
	Dispense height: 371mm	

INSTALLATION REQUIREMENTS

The Elkay-Bi-Level Outdoor requires adequate floor space for installation. Please ensure that the following is available where the system is to be installed. All of the below can be confirmed in your site survey:

- ✓ **A level floor pad of concrete or similar that can support 31.2 kg.**
Minimum dimensions 400mm x 400mm.
- ✓ **A potable water supply in 15mm pipe directly through the centre of the floor pad.**
- ✓ **A waste pipe with a minimum size of 32mm along side the water supply pipe.**
- ✓ **A Direct Bury fountain adapter is an accessory. It provides a safe housing for the internal service pipes and a template within your prepared concrete pad for secure connection. This is an optional extra, please request at time of order.**
