LK-MaxUV

Mains fed, surface-mounted, bottle filler

KEY FEATURES

- Electronic sensor activated bottle filler
- Mounted to wall or floor for indoor use
- Optional remote chiller for refrigeration
- Ultraviolet water sterilisation system
- Laminar flow provides minimal splash
- Silver Ion Antimicrobial protection on key plastic components to inhibit the growth of mould and mildew
- Full filter change and servicing package included
- Built-in drainage eliminates standing water
- Optional branded vinyl wrap
- With **pura** filtration
- Optional **puraguard** Antibacterial and antiviral protection

The LK-MaxUV high-performance water dispenser has been designed for durability - with rust-proof, vandal-proof and incredibly strong properties. It is wheelchair accessible and can be secured to either the wall or floor using pre-drilled location holes. The external cabinet is small and unobtrusive, taking up minimal floor space.

This machine is easy to install and the wipe-clean exterior means that everyday maintenance is kept to a minimum. Delivering an unlimited supply of filtered water, this bottle filler would make the perfect addition to any eco-conscious business, school, transport hub, shopping centre or factory.

The integrated Green Ticker informs users just how many 20oz plastic water bottles have been saved from waste through the use of the refill station.
