Under Sink Water Chiller

The ideal solution where floor space is limited

KEY FEATURES

- Chilled, filtered water only
- Cooled temperature 4 - 10°C
- Under sink model
- Adjustable cold water thermostat
- Powder coated cold rolled steel casing
- Requires a sink mounted faucet (not included)
- Output: 11.5 litres an hour
- With **pura** filtration

Our under sink water dispenser is available as a cold only chiller, supplying cooled, filtered water on demand from a counter-mounted tap adjacent to your sink or handbowl (not included).

This chiller has been created especially to accommodate small spaces conventional dispensers are too large for.

Measuring only 300mm x 410mm x 300mm, this impressively quiet electric refrigeration unit installs discretely under most sinks and can dispense a cool 11.5 litres of water an hour.

The compressor driven chiller provides exceptional cooling performance. Simply connect the chiller to one of our countertop mounted faucets for cold water on demand.

Depth:	300mm

FULL SPECIFICATION Under Sink Water Chiller

Power rating	Single phase	
	100-115VAC 60Hz	
Standard current	Cold	1.2A
Power consumption	75W	
Cold	Compressor	Single phase motor
	Refrigerant	R134a
	Temperature range	4 - 10°C (39.2 - 50°F)
	Capacity	1.95L (0.5 gal)
Refrigerant charge	35.0g (1.2 oz)	
Product weight	12.5kg (27.6 lb)	
Product boxed weight	13.6kg (30.1 lb)	
Product dimensions	410mm (W) X 300mm (D) X 300mm (H)	
	16.5" (W) X 12" (D) X 12" (H)	
Product boxed dimensions	430mm (W) X 330mm (D) X 340mm (H)	
	16.9" (W) X 13.0" (D) X 13.5" (H)	
Loading quantity	20' container	637 units
	40' container	1323 units
IEC protection class	Class 1	
Certifications	C-UL-US, CB, WRAS	

AVAILABLE ACCESSORIES

Recyclable Paper Cups

- 7oz recyclable paper cups
- 4oz paper cones

Taps

A range of taps are available to enable you to dispense from this machine, please visit our PuraServe pages for more details puraserve.co.uk
