E6-C mains fed watercooler

Chilled only model, designed for infection control

KEY FEATURES

- ✓ Chilled only
- ✓ Designed for the NHS and healthcare
- ✓ Ultra-hygienic, back-lit touch-sensitive control panel, with antimicrobial protection
- ✓ Hygienic single water pathway
- ✓ Chemical-free and energy-efficient LED-UV-C water purification
- ✓ Optional touchless operation via Bluetooth® app or Sensorbeam® Cabinet
- ✓ 290mm dispense height
- ✓ Energy-saving Dry Chill® cooling system
- ✓ Optional internal alarmed waste kit
- ✓ Full filter change and servicing package included
- ✓ With **pura** filtration
- ✓ Built in the UK

The Borg and Overstrom E6-C NHS water cooler dispenser offers unparalleled infection control for drinking water, mitigating the risk of bacteria and virus transmission. It has been designed to meet stringent water quality standards for the NHS and healthcare sector, through a unique single water pathway, UV-C purification, Pura filtration and optional hygienic touch-free dispense.

The short, single water pathway eliminates the risk of standing water where bacteria may harbour, reducing the risk of pseudomonas and Legionella.

The E6-C NHS water cooler combines intelligent eco-friendly technology, energy-efficiency, powerful performance and ultimate hygiene protection to ensure the safety and hygiene of dispensed water.

AVAILABLE ACCESSORIES

Recyclable Paper Cups

- 7oz recyclable paper cups
- 4oz paper cones

Thirsty Work Water Bottles

Thirsty Work 500ml reusable stainless steel water bottles. 67mm x 270mm high.

Bespoke Printed Water Bottles

Add your own company logo to our 500ml reusable stainless steel water bottles. Available in a range of colours.

Touchless Dispense Foot Control and App

Control your water dispenser with foot control. The SensorBeam™ Base cabinet is an innovative, illuminated floorstanding base with projection touchless dispense, or a smartphone app, eliminating the risk of spreading bacteria on touch-panels.

Please contact us to check model compatibility and to activate this feature on your dispenser

Accessories

- CO² refills
- Ultra-violet filter kit
- Waste kit overflow sensor

T-Safe Filter Kit

Primarily for healthcare environments, this added layer of protection can be installed at the point of dispense to capture any potential bacteria, waterborne pathogens or other contaminants.
