KEY FEATURES

- High capacity output
- Choice of water type configurations:
Chilled/ambient still,
Ambient/chilled still and sparkling,
Ambient/chilled and hot,
Ambient/chilled/sparkling and hot
water options
- Intuitive glass touch pad
- Compact under-counter units
- Two tap heights
- Low energy consumption
- Brushed stainless steel or black finish
- Choice of two boiler sizes with boiler
standby/night modes
- Built-in drip tray
- Easy access panel available
- With advanced **pura** filtration

The Brita Extra C-Tap has been designed with state-of-the-art technology, producing up to 86% less CO₂ emissions than pre-bottled water.

You can choose up to five water types: unchilled and chilled still, chilled semi-sparkling and sparkling – plus hot water.

The inbuilt **pura** filter puts better-tasting water on tap, filtering out chlorine taste and odour and impurities as tiny as one ten-thousandth of a millimetre, but does not remove beneficial fluoride.

DIMENSIONS

Tap height:	339mm / 409mm
Dispense height:	260mm / 330mm
Tap width with font:	134mm
Tap depth with font:	269mm

OUTPUT OPTIONS

The Brita Extra C is fed from under-counter units. There are two boiling output options to suit your requirements.

Brita Extra C	Chilled/Sparkling litres/hr	Hot litres/hr	Max power consumption	Under-counter unit dimensions (mm)
Chiller	85	-	540 W	W 272 x D 473 x H 490
Boiler	-	L: 20 XL: 30	2.1 KW	L: W 230 x D 234 x H 415 XL: W 230 x D 234 x H 670

Identify a suitable location for the ProCore unit. It should be positioned within 1.0m of the faucet, and within 2.0m of suitable services connections. Ensure to allow enough space for the Simple-fit Vent Kit which must be installed with the unit.

Identify a suitable position for the faucet. Refer to the cut out guide template. Also allow for the height of the swan neck under any overhanging cupboard/shelf.

INSTALLATION REQUIREMENTS

The Brita Extra C Tap requires adequate worktop and cupboard space for installation. Please ensure that the following is available where the system is to be installed:

- ✓ **A potable mains water supply within 5 metres of unit installation location.**
- ✓ **A 240-volt electric socket within 1 metre of unit location.**
- ✓ **Worktops are clear and in a finished state.**
- ✓ **A suitable waste pipe for the drip tray to drain.**
- ✓ **Any cupboard construction to house the equipment is complete** (if applicable).
- ✓ **Food grade CO₂ gas cylinders are required if you choose a sparkling option. The unit is supplied with one cylinder on installation, this will get you up and running. To keep your water sparkling please remember to order additional cylinders for delivery on your installation day.** These can be ordered by calling 01392 877 172.

Worktop cutting template available to order.

All of the above can be confirmed in your site survey.

Why choose PuraServe?
