Unit

KEY FEATURES

- High capacity output, 30-40 litres/hr
- Chilled, sparkling and hot water options
- Chilled temperature: 5°C to 7°C
- Under-counter boiler and chiller
- Sleek, stylish design
- Push-button control panel
- Steel finish
- Space saving
- Up to 235 cups per hour of cold water
- Up to 156 cups per hour of hot water
- Energy efficient
- Built-in drip tray
- With advanced **pura** filtration

The FRIIA tap integrates seamlessly into any work area or communal space. Accompanied by an under-counter chiller for high-capacity dispensing of still and sparkling water, plus a hot water boiler for dispensing hot water.

With a built-in drip tray and 247mm dispense area it's a highly practical solution for higher-volume workplaces, such as hotels, cafés, or offices.

An excellent choice for any workplace that wants to offer beverage choice whilst reducing their use of single-use-plastic and save on costs of having bottled water in a fridge.

The inbuilt **pura** filter puts better-tasting water on tap, filtering out chlorine taste and odour and impurities as tiny as one ten-thousandth of a millimetre, but does not remove beneficial fluoride.

DIMENSIONS

Tap height:	286mm
Dispense height:	247mm
Tap width with font:	120mm
Tap depth with font:	168mm

OUTPUT OPTIONS

The FRIIA is fed from an under-counter boiler and chiller. There are two hot output options to suit your requirements.

FRIIA Model	Chilled litres/hr	Sparkling litres/hr	Hot litres/hr	Max power consumption	Under-counter unit dimensions (mm)
FRIIA Cold	30-40	30-40	-	180W	W 259 x D 436 x H 455
FRIIA 3L Hot	-	-	28	2.8 kW	W 210 x D 385 x H 444
FRIIA 8L Hot	-	-	28	2.8 kW	W 210 x D 385 x H 617

TAP DIMENSIONS

INSTALLATION REQUIREMENTS

The FRIIA Tap requires adequate worktop and cupboard space for installation. Please ensure that the following is available where the system is to be installed:

- ✓ **A potable mains water supply within 5 metres of unit installation location.**
- ✓ **A 240-volt electric socket within 1 metre of unit location.**
- ✓ **Worktops are clear and in a finished state.**
- ✓ **A suitable waste pipe for the drip tray drainage.**
- ✓ **Any cupboard construction to house the equipment is complete (if applicable).**
- ✓ **If you have chosen a hot option the cupboard to house the units require a minimum height of 800mm (8L hot) or 600mm (3L hot) and must be 600mm wide x 600mm deep.**
- ✓ **The base units require the installation of ventilation grilles (see diagram on following page).**
- ✓ **Food grade CO₂ gas cylinders are required if you choose a sparkling option. The unit is supplied with one cylinder on installation, this will get you up and running. To keep your water sparkling please remember to order additional cylinders for delivery on your installation day. These can be ordered by calling 01392 877 172.**

Worktop cutting template available to order.

All of the above can be confirmed in your site survey.

VENTILATION

It is essential to allow for two ventilation points when installing FRIIA. Vents are not supplied. Where possible, we recommend removing the back of your cabinet.

Why choose PuraServe?

Everything you'll need is included within your rental price:

- ✓ Site survey
- ✓ Water dispensing system
- ✓ 60 re-usable Pura glass bottles
- ✓ 120 reusable silver bottle caps
