

Your Guide To Hygienic Hydration

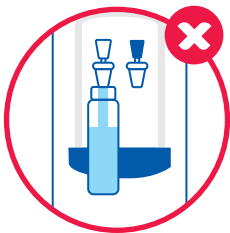

These steps should be followed daily as part of your routine, in order to keep your water cooler clean and safe for everyone to use

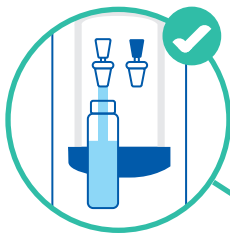

Wash your hands before touching buttons and operating the taps

Keep a safe distance from the person in front of you

Avoid contact between your cup or bottle rim with the water dispensing nozzle

Avoid touching the water cooler surfaces

The drip tray can be cleaned daily with dish soap, or put into the dishwasher when the cooler is not in use

Sanitise the taps and dispensing area frequently with food safe sanitiser spray or wipes
