INSTALLATION OPTIONS

Floor-standing Unit

The Niagara range encompasses our largest capacity water bottling systems. The Niagara Evo Pure is a robust, solid and high-performance water cooler with built-in UVC LED sanitising system, making it extremely hygienic. This model is ideal for large uses, allowing instant delivery of large quantities of ambient, chilled or sparkling water. The 3 dispense points allow even faster water bottle filling, up to 120 litres per hour, ideal for busy environments like schools, prisons, hotels, restaurants and conferencing.

DIMENSIONS

Height:	1551mm
Width:	485mm
Depth:	558mm
Dispense height:	320mm

The Niagara is an all-encompassing product, instantly dispensing large amounts of still and sparkling, chilled and ambient water. Simply connect it to the water mains to begin using the complete service.

Safe and extremely hygienic:

- 12 W UV lamp in input
- Triple UVC-LED at each output point
- Optional Touchless dispense with infrared sensor

TYPICAL SPECIFICATION

The Niagara's internal taps can dispense water continuously or intermittently as desired.

The "ice bank" with double coil improves the efficiency of simultaneous chilled and sparkling water dispensing. This high performance cooling technology cools considerable quantities of water and enables the dispensing temperature to be kept constant even when continuously dispensing many litres.

Branded glass water bottles.

We supply a range of dishwasher-safe **pura** glass water bottles in various capacities with flip-tops or screw caps.

Our glass bottles are printed with the **pura** brand as standard however we also offer a bespoke printing service.

You can choose to brand as little as 100 bottles with your own company logo.
