# Supplying your artwork

## ARTWORK SUPPLY GUIDE:

When sending your logo to us the best format to supply is a vector file, preferably Adobe Illustrator (ai). If this is not possible a high resolution pdf file would be preferable.

You can download the bottle artwork templates on our website.

Any text included in the artwork must be converted to outlines to avoid any fonts being substituted. If you do not outline your text we cannot guarantee that the font substituted will be the same.

Please make sure that your file is saved in a single colour, or two colours if that's your printing preference.

We will send you a final proof for you to sign off before proceeding to print.

## COLOURS:

Your logo will be screen printed directly onto the glass in solid Pantone colour.

We have a wide range of stock colours available for printing, so we usually have something very close to the colour required, however we can colour match specific Pantone colours for an additional charge.

When you send us your logo file please state your preferred Pantone colour reference/s. Please also state whether you'd like us to match to our stock colours, or if it's essential that we print your exact Pantone.

Please email your artwork to: [hello@thirstywork.com](mailto:hello@thirstywork.com)

## PROOFING:

You will initially receive a proof via email showing the placement of your logo. On sign-off we will send you a printed sample of your bottle/s for final acceptance before proceeding to print your order.
